TELCON
Hughes
Ball
8/4/64, 2:50 p.m.

Ball asked the status of the attack on the MADDOX. Hughes replied the last word is 22 torpedoes have been successfully avoided and 3 MTBs have been sunk. It is still going on with daylight an hour away. Daylight, presumably will be an advantage to our side, as they are hard to find and hit. Ball asked if there had been any hits on the destroyers and Hughes replied no, but there has been some indication from Marvel's contact that they think they hit one of our aircraft. We have not yet had anything on this.

Ball asked that Hughes keep him informed.
